DETAILED ACTION

Drawings

The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they do not include the following reference signs mentioned in the description: Numeral “65” (page 37, line 26) and numeral “48” (page 39, line 11) are not shown. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The replacement sheet(s) should be labeled “Replacement Sheet” in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-21 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, line 3, the recitation “close” is indefinite since “close” is a relative term and it is unclear as to exactly what “close” is supposed to be.

In claim 3, line 2, the recitation “the shaft member” lacks proper antecedent basis. To correct this, the word “member” should be deleted since “member” is extraneous.

In claim 6, lines 3 and 4, the recitation “the elongated shaft member” lacks proper antecedent basis. Again, “member” is extraneous and renders the claim indefinite.

In claim 8, line 2, the recitation “the attached blade” lacks proper antecedent basis. The recitation “attached” is extraneous and renders the claim indefinite.

In claim 12, line 2, the meaning of the word “inwardly” in the present context of the claim is not clear. What is “inwardly” relative to or toward in the claimed structure?

In claim 16, line 1, there is no proper antecedent basis for the recitation of “the primary and auxiliary lever arms”.

In claim 17, line 7 and in claim 20, line 2, respectively, there is no proper antecedent basis for the recitation of “the operator’s foot”.

In claim 19, line 1, the recitation “the operator” has no proper antecedent basis.

In claim 21, line 2, the recitation “the hand” has no proper antecedent basis.

Allowable Subject Matter

Claims 1-21 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
